BY THE NOVA SCOTIA, NEW-DRUNSWICK AND MAINE TELEGRAPHS TO PORTLAND, AND THESE BY BAIN'S MERCHANTS LINE TO NEW-YORK

Haltean Telegraph Office, Monday Night, Sept. 15.

The Royal Mail steamship Europa, Capt. Lott, from Laverpool on the Cin inst., arrived at this port shortly after is o'clock this evening, bringing 151 passengers. She sailed for Boston at 10] o'clock, and will be due at that city at 7 on Wednesday morning.

The Europa took on board here a goodly number of our citizens as passengers for Boston, to witness the great Railroad Celebration in that city on the 17th inst. Among the number were Hon. Joseph Howe, Hon William Young and Hon. M. Tobin.

The Corrow market has again assumed a dall as pect, and buyers find the feeling decidedly in their favor. But beyond this there was scarcely a quotable change in prices during the week ending the 5th

The total sales of the week are stated at 35.570 bales, of which speculators took 2,900 bates, and ex-

bales, of which speculators took 2,000 bales, and exporters 4,000 bales. The authorized quotations on Friday were, for fair Bowed, 5id. fair Mobite. Sid. fair Orieans, 6d.

The sales of Friday, previous to the sailing of the Europa, were 6,000 bales, of which speculators and exporters took 1,500 bales. The market closed with a quet feeling.

In the Grain trade, the demand has been brisk.

factors, however, having been compelled to accept periots prices. The supplies of English, of this tear's growth, have been lineral, and chiefly of good sality. Agood steady business has been transacted in Wester and Flours, at quite as full prices as on Tresday, and there was loss disposition to press sale, more particularly so of fair qualities of Amer-

There has been no improvement in the Provision market during the week.

Sales of Brir have been made only by retail. N

considerable quantity could be disposed of at pre-

The stock of PORK is small, and prices continue

BACON is in moderate demand, and HAMS and BACON is in moderate defining, and Hans and Smotlders are without improvement. The sales of Lard have been 200 tuns, at full rates. Chesses has been in invited request. Tal-tow is scarcely so active, but prices have not de-clined.

In Sugar the transactions of the week have been

ma more extensive scale than for several weeks Pevious.

TEA continues dull, with scarcely more than a remidemend. The same remarks also apply to Cor-

American TAR has been sold in small quantities at

American TAR has been sold in small quantities at its 3d or 4d. Spirits of Terrestine is worth 33s., which is a slight decline. A lot of 100 bbls, have been sold at this price.

Asies are in fair request at 27s. 6d. to 28s. for new. and 26s. 6d. for old Pots. Pearls are quoted at 28s. 6d for old, and 29s. 6d, for new.

Lissee Oil, is dull at 33s. 6d. There is but a very limited demand for Reper at 20s. 10 bbl. No. 2. Stat Oil is heavy at 33s, fod. From For Con there

is little inquiry at 36s.

The market for Irox is dull, the intelligence from the Frited States not being regarded as favorable. There is, however, no material change in quotations. The market for British manufactured goods is brisk, without any advance in prices.
In the Share market, there has been rather more

in the Share market, there has been rather more usiness doing. On Friday, there was a slight residen, and on the 6th the market was flat.

There was less demand for money, and the rates of discount were tending downward. Good brils were readily discounted at 21 to 3 per cent.

In the rates of foreign exchange there had been no material change. The tendency at Paris appeared to be downwards, and at other places on the Continuous rather backer.

STOCK Market was duil at the opening on the sh, but the purchase of £100,000 Consuis, by a leading broker, amproved the tone of the market, which closed better.

closed better.

Consols for 'money and account are quoted at 96; to 96; . Three-and a quarter per Cents at 98; to 98; ; Back Stock at 215 to 216. EXCHANGE BILLS, long and short, 44 to 47 premium. The Manchester Market was quiet.

PHILADELPHIA.

The President in Philadelphia-More about the Christiana Riot. Correspondence of The N. Y. Tribune.

PRILADELPHIA, Monday, Sept. 15, 1851. President Fillmore arrived in this city this

President Fillmore arrived in this city this afternoon, en route to New-York and Boston. The President has merely stopped to dine, and will contain this following is the finding of the Coroner's Jury on the body of Mr. Gorusch.

Limeaster County, is An inquisition indented taken at Sadsbury Gap, in the County of Lancaster, the 11th day of September, A. D. 1851, before me, Joseph D. Pownall, Esq., for the County of Lancaster, upon the view of the body of a man then and there lying dead, supposed to be Edward Gorsuch, of Beltimore County, Md. upon the affirmation of George Whitson, John Rowland, Osborne Dare, Hitam Kencard, Samuel Miller, Lewis Cooper, Geofrith Wm. Knott, John Ellis, William Millhouse, Joseph Richwing, and Miller Knott, good and lawfillmed and charged to inquire on the part of the affirmed and charged to inquire on the part of the Commonwealth, when, where and how the said decreased came to his death, do say, upon their affirmations, that on the morning of the 11th inst, the neighborhood was thrown into an excitement by the above deceased and some five or six persons in by the above deceased and some five of six persons in company with him, making an attack upon a family of colored persons living in said Gap, near the Brick Mill, about 4 o'clock in the morning, for the purpos of arresting some fugitive slaves, as they alleged. Many of the colored people of the neighborhood collected, and there was considerable firing of guns and other freams by both parties. Upon the arrival of some breams by both parties. Upon the arrival of some of the neighbors at the place, after the riot had subsided, found the above deceased bying upon his back of right side, dead. Upon a post mortem examination upon the body of the said deceased, made by Drs. Patterson and Martin, in our presence, we believe be came to his death by gun shot wounds that he received in the above mentioned riots, caused by some person or persons to us unknown.

In witness whereof, as well the aforesaid Justice as the Juvos aforesaid base to this impuisition put.

as the Jurors aforsaid, have to this inquisition put their seals, on the day and year, and at the place first above mentioned.

ass acove mentioned.

Sr. JAMES'S THEATER - Last evening Sr. James's Theater.—Last evening the American children, Kate and Ellen Bateman, essayed the characters of Partie and Shglock in the trial scene from the "Merchant of Venice," with the same species of success, critically speaking, which diended their previous efforts. The effect their singular performance produced upon the public was made maintest by hearty and frequent applaines, and the enthusiastic call for the infinite artists which followed the fall of the curtain.

There was a very crowded audience, among whom we observed the Duchess of Somerset, the Marchioness of Aylesbury, Madame de Horta, the Austrian Ambassaior, the Turkish Ambussader, the Prince de Schomberg, the Duc d'Ossuna, Lord Charles Bruce, &c., &c.

The children were presented at the close of their

performance, and by the desire of the Duchess of Somerset, to the distinguished members of the corps diplomatique who formed her grace's party, all of whom expressed themselves in terms of the highest admiration of the talent of the youthful artistes.

(Lendon Morning Post.)

CITY ITEMS

To The weather is fine and cool, walkthe briskly is agreeable and a blanket at night en

13 See VIIth Page for several columns of local matter.

ARRIVAL OF THE PRESIDENT .- At about 12 P. M. President Fillmore arrived in the Passaic, from Newark, on his way to Boston. He was toompanied by Hon. Charles M. Conrad Secretary of War) of Louisiana, Hon. Alexander H. H. Stuart (Secretary of the Interior) of Virginia, and John O. Surgent, Editor of The Washington Republic. As soon as the Passaic effected a landing Henry F. Tallmadge, U. S. Marshal for this District, went on board and escorted the President to a carriage in waiting at the Hoboken Ferry Landing, foot of Barclay-st Secretaries Stuart and Conrad were shown to their carriages by Hon William V. Brady, Postmaster of the City, who accompanied the Presisent and his suite to the boat. Marshal Tallmadge accompanies the President to Newport, R. I., and transfers him and Cabinet over to the Committee from Boston (who are waiting the arrival of the President at the landing,) composed of U. S. Marshai Devens, Francis Brinley, President of the Boston Common Council, and Mr. Holbrook, a member of the Council. To-day the President spends at Newport, where

The Serenade to Catherine Hayes came off in fine style last night in the square in front of the Astor. Several bands and a large number of firemen, besides a vast concourse of citizens, were present. The fair singer bowed her thanks from the window, and was heartily received by the people.

THE HAVES CONCERT.-We publish, in another column, the programme of the first concert of Miss Hayes. We note that Madame Bertucca Maretzek is engaged to play the harp, and it is also understood that the impresario, Max himself, is to be the musical director of the concerts; and further, that most of the distinguished artists at present in the city will participate in them.

THE NEW-YORK TIMES .- This new paper, which was to have appeared this morning, is necessarily delayed until Thursday, because it is not possible to get their press-one of Hoe's lightning ort-ready for use until to-morrow.

BETTINI'S BENEFIT. - Otello. - One of the greatest treats of the whole season-so rich in musical feasts-will unquestionably be the perform ance of Otello, which is to be given to-night, for the first and we believe only time, on the occasion of Bettim's benefit. The part of the Moor is admirably suited to Bettim's style and figure, and we shall be greatly mistaken if he does not produce and leave an empression superior even to that which he made in Lucia, Ernani, and la Favorita. Vietti has been expressly engaged to sing the part of Rodrigo, which he is said to have made peculiarly his own. Bertuc-ca's Desdemona is too well known to need any com-mendation. Beneventano makes a capital lago, and Marini will add fresh laurels with the renowned "Figlia, it Maledetto."

EXTENSIVE CONFLAGRATION .- Yesterday afternoon, about 3 o'clock, a fire broke out in a large building occupied as a carpenter's shop, in the rea of No. 706 Broadway. The building being very dry, and the contents combustible, the flames spread with astonishing rapidity, and communicated to a large number of houses in the vicinity, occupied mostly as private residences. So rapid was the transit of the flames that the fire department, who were promptly on the ground in large numbers, scarcely knew at which point first to commence their labors. The wind was blowing fresh at the time, and the dense smoke which issued from the burning buildings filled Broadway and the contiguous streets for some distance, causing many of the residents in the vicinity of the conflagration to flee precipitately from their dwellings. After several hours of arduous labor, the not, however, before a large amount of property had been destroyed and damaged. The following are the losses, as far as could be ascertained by our Re

porter.

A carpenter's shop, owned by Mr. Carments, and eccupied by Mr. Mount. The building, valued at \$600, was entirely destroyed, together with the stock, tools, &c., belonging to Mr. Mount. Total loss about \$1,000. No insurance. The roof of the brick dwelling house No. 704 Broadway, was slightly damaged. A larse brick dwelling No. 706 Broadway, eccupied by Mrs. Lowe, as a boarding house, was badly damaged, the roof being partially destroyed and the rear windows entirely burnt out. The loss on the furniture belonging to Mrs. L. is estimated at \$1.000, upon which there is no insurance. ted at \$1.000, upon which there is no insurance. ted at \$1.000, upon which there is no insurance. The building, owned by Messes. S. & L. Holmes, is damaged to the amount of \$2.500, fully insured. The two story brick building. No. 708 Broadway, occupied by G. Cortois, hair dresser, Alexander McKimzie, plumber, and Messes Haguffie, Brothers painters, was partially destroyed. Loss on building about \$500—msured. G. Cortois estimates his loss at \$600—no insurance. McKimzie's loss is about \$3,000—fully msured. Mr. Haguffie, Brother's loss \$600—no insurance. The fine large brick building, No. 710 Broadway, owned ioss is about \$3,000—fully insured Mr. Haguffie, Brother's loss \$600—no insurance. The fine large brick building, No. 710 Broadway, owned and occupied by J. Chesterman, Esq., is considerably damaged by fire and water. The greater part of the furniture was saved. Loss on building and furniture about \$6,000 fully insured. Mr. Chesterman and family are absent from the City. The two story frame dwelling house, in the rear of No. 347 Fourth-street, owned by a Mr. Wilson, was entirely destroyed. Loss about \$1,000—fully insured. Nearly all of the furniture of the occupant of the premises, Mr. Charles Field, was removed before the building took fire. His loss is estimated at \$50—no building took fire. His loss is estimated at \$50-no insurance. The large frame house in the rear of No. 319 Fourth-street, owned by Mr. Carment, was damaged to the extent of \$500-nilly insured. The premises were occupied by Mr. Roomey, who estimates his loss at \$600-no insurance.

The total loss may be set down at from \$16,000 to

The origin of this fire is not exactly known, although a servant in the boarding-house of Mrs. Lowe states, that she saw a man in the carpenter shop smoking a pipe, when some of the fire fell out, among a pile of shavings, near where he was sitting. and that shortly after the alarm of fire was given it would be well for the authorities to investigate

-At III o'clock last night a fire broke out in the igar store and manufactory of Lewis Levi. No St. Columbia-st. The firemen were quickly on the spot, and in a short time had the flames subdued. The building was a very small one, and was mostly destroyed. No insurance. No other buildings were

FIRE IN WOOSTER-STREET .- About five o'clock yesterday afternoon a fire broke out in the Ward, School-house No. 11 Wooster-street near Bleecker, said to have originated from a spark from the fire in Broadway. The firemen were promptly on the ground and soon extinguished the flames The roof and ceilings in the upper part of the building were damaged to the amount of \$500.

THE BRIDGEPORT FIRE.-We hear that the full extent of the damage done at Bridgeport amounts to about \$50,000. Beside the Church and the Union foundry, two other small factories were burned, and some few dwelling houses were considerably injured. By reason of the scarcity of water some of the engines were rendered useless.

EXCURSION .- The Seventh Company of National Guards went to Long Island yesterday, on

Emigration .- There arrived at this port vesterday 3,890 passengers, as follows 269 From Port-au-Platt Havre

ARREST FOR GRAND LARCENY .- Officer ARREST FOR GRAND LARCENY.—Officer Webb, of the Fifth Ward, yesterday arrested two persons, named Marta Stuart and Charles Green, on a charge of grand larceny, in stealing \$38, in bank notes and gold coin, the property of Wm. Heydenreich, residing at No. 16 City Hall-place. It appears that the prisoner Maria enticed the complainant into a house of disrepute in Duane, near Church-Street, where she managed to extract the wallet containing the money from his pocket, and it was found, on the arrest of Green, in his possession. The accused were committed by Justice Lothrop to prison for that.

WEEKLY REPORT OF DEATHS.-The following is the weekly report of Deaths in the City and County of New-York, from the 6th day of September to the 13th day of September, 1851. Men. 69: Wo-

The above table shows an increase of only 2

the aggregate of the previous report, which is un

expected, in consideration of the remarably hot

weather. The action of the principal diseases was

so much like the former two weeks, that we do not

observe any noteworthy variations, except in small

pox, which has gone up from 4 to 12. We append

our table of mortality of the young since the 1st of

328

GOLDSMITH'S WRITING ACADEMY.-This

popular institution has opened for the season with

its usual eclat, and now offers advantages for obtain-

ing a correct and elegant style of penmanship, which

should not be neglected by any who wish to culti-

vate this indispensable accomplishment. Mr. Gold-

smith is celebrated for his own graceful and artistic

use of the pen, while at the same time, he possesses

an uncommon faculty of imparting his skill to his pu-

pils. It is an excellent time to join his classes, dur-

ing the delightful weather which has succeeded the

BLUNDERED ASHORE .- Not many days

since one of the steamers which navigate these wa-

ters had taken aboard her freight and passengers for

New-York, and to all appearances was ready to go .

the Captain, conspicuously posted on the wheel-

house or thereabout, cast an eye overboard, reckoned

all was right, sung out to cast off the lines and haul

in the plank, vibrated the Engineer's "go ahead'

bell, and walked into his office to take the passen-

gers' dimes. All seemed right, and the Captain was

just opening his pay window when-r-r-r-p-p, and

there was the boat, on the other side of the harbor,

with her bow buried six feet in the mud, and the

whole concern fast and firm as a hard-shell clam at

iow water. Here was a fix . the Captain bolted out

and bolted his door and took a long stare at the merits of the case, walked down to the stern gangway

and cast a glimpse at the port he supposed he had

left, when it occurred to him that perhaps the

mlot might have something to say concerning

this unexpected landing. Away he went to

the wheel-house, and interrogated that important

branch of steam navigation, when it appeared that

the Captain had set the Engineer to work without

apprising the pilot, the latter gentleman being legit-

mately dreaming of anything but running ashore therefore the wheel was without a manager, the helm took its own course, the boat yawed in the wind and came to in the mud, as aforesaid. Whether

the Captain, or the pilot, or the helmsman, or the

blame, we cannot say, but we know that the passen-

sengers were stuck and so was the boat, and not an

nch did either budge until the latter was lightened

by the transmigration of her cargo, human and oth-

erwise, to another boat-then she backed out of her

mud bath, and came to town half a day behind time.

U.S. Marshan's Office — Charge of recold— Five seamen of the brig Zaza, named Salbot, Martin, Mas-don, McAllater, and Reynolds, were arrested by Deput Marshals De Angels and Rakuelewitz, charged with endles-voing to make a revolt. The ressel had just got out of the harbor, we understond, bound to sea, and difficulty occur-red with the men, when she returned. Commutted for ex-

mination.

Descriters - Two seamen of the Swedish brig Themes, creariested, on complaint of the Captain, as descriters, in feturated to their vessel. COURT OF GENERAL SESSIONS, Sept 15.—Before Judge Beebe and Aid Frankin and Miller.—Trust for Burglary — A young man named John Boys was glaced on trust, charged with burglary in the first degree, in breaking into the house of Edward Smith, No 154 Leonard stoom to the 10th of July last, and stealing therefrom \$550 in gold and silver, money and bank bulls. On trust of the case it was proven that certain bills were found in possession of the prisoner, which Mr. Smith recognized as having been in his possession. He could not, however, swear that they were taken from him on the night of the burglary. The proceedings failed to connect Boys with the defense, and the Court therefor instructed the Jory to return a verdict of not guilty, which was done, and the presence was discharged.

charged.

Tend for Fergera.—Patrics Connell, an elderly man, was placed at the bar to answer an indoctment charging him with forgery in the second degree, in procuring to be engraved on wood the form of a bank note, or bill purporting to be ensured in which the New York Bank at Hadley Saraton County. The prasoner made apprecation to an engraver of the passence made apprecation to an engraver out fluid requested the engraver to make a far simile of the bank note which he presented. Mr Cocheo, the engraver weat immediately to the Chief of Police, and informed that officer of what had passed between the praoner and himself. The Chief advised Mr. Cocheo to do the work, and meantane officers were placed to watch the prisoner, and when he came for the engraved dock, he was atrested, having it on his person. There was no defence, and Countel was envised and remained for sentence.

Addection and Seduction — A sailor named James Thompsen, was placed on trial, charged with addouting from her parents a girl about 14 years of age, named Mary Annared when arrived here from Liverpool about a fortunglia are. The prisoner was a sold on board the sain finding and an infilmacy sprains up between him and the vessel, and an infilmacy sprains up between him and the result. Shortly after the vessel arrived at this port, the girl eith her parents, and has not since been found. The present out of failed to prove that Thompsen seduced or abdusted out to failed to prove that Thompsen sendered by the Jury, and he was discharged. Adjourned for the day.

Count Calender.— This Day — Cincult Charged.
Triol for Forgers -- Patrick Connell, an elderly man, was

resolutions were read by H. L. Sthart and thank-mously adopted

1. That it is expedient, as well as a solemn duty devolving on the friends of the Temperance cause, in each of the several Wards of the City of New York, to insist on the nomination by each of the recognized political parties of such persons for members of the City and State Governments, as will, by sledge and well-known previous action on the question of Temperance, tend to secure the most efficient legal eincitnents to prevent the traffic and use of aident spirits as a beverage, and to away entirely with the abominable bloches system, with its attendant train of croggeries of every degree, within the bounds of the City and County of Now York, and, it possible to secure the passage, at the next session of our State Lear-Sature, of a uniform State law on this subject, and in all such cases, where either of the political patters fail to accede to the above specified action, it shall become imperative on the friends of Temperance in such case to make and maintain, to the atmost of their noisity, independent nonimations as a third party.

2. That it is the duty of every friend of Temperance and humanity to engage actively in the forth coming canvass and election and to attend at oil primary meetings in soch numbers as well secure the nomination of efficient Temperance.

3. That it is the opinion of this Society, the duty of the Clerry to earliers call the attention of their respective or meeting and the entire aboution of the subject of Temperance.

4. That it is expedient to call a Mass Meeting at an early day, to take into consideration the best means of securing the entire aboution of the accurated Rum traffic with all its houring forms of want, wretchedness, desolation, crime, and premature death.

3. That a Committee of three or more, be appointed by 5. That a Committee of three or more, be appointed by 5. The at Committee of three or more, be appointed by 5. The at Committee of three or more, be appointed by 5. The at Committee of three or more,

Title description and the	

MONDAY, Sept. 15-P. M.

The Stock market, to-day, was rather buoyant at the First Board with a moderate inquiry for the fancies, Erie being still the leading Stock. The firmness of the morning did not, however, hold. and at the Second Board the tendency was downward, excepting for New-Jersey Zinc Co., which conti: ues to improve, having advanced \$2.50 P share within a few days. For Government and State Stock there was a moderate inquiry and quotations are steady. Bank Stocks are firmer than they were The main difficulty with the fancies appears to be the moderate amount of outside speculation. Capitalists can employ their money at 12 als # cent. on good paper, which is preferable to speculating it Stocks, and the mercantile world have sufficient em ployment for theirs in taking care of their regular Exchange is steady at 10t a 10t for

first class names, but without activity. Francs are 5.12+ a5.11;. We are likely to get some relief soon in the Exchange market from the South. The Cotton crop is about twenty days earlier than last year, which will bring us a supply of Southern bills sooner than has been generally anticipated, say from the 5th to the 15th of October. Considerable quantities of Cotton are now going forward to tide-water. For another reason, however, it is thought that we shall another reason, which is soon have a supply of bills from the South. The de-posits of the Southern Banks and Bankers in this posits of the City are nearly or quite exhausted, and Exchange is coesiderably in favor of New-York so that, to make the remittances to this point before Cotton comes forward freely, coin must be used. This is particu-

farly the case at New-Orleans, from whence the last steamer brought \$150,000, and the Union has a considerable quantity on board. Under these circum stances, the New-Orleans and Mobile Banks, in order to check this increment of coin, will probably open credits in Liverpool or London against Cotton to go forward in November and December, and thus give us an earlier supply of Sterling than we should otherwise have had. This is not an unusual course, and there are good reasons why it should be adopted now. The high rates for good paper are also having their effect, and we know of more than one wealthy house having connections upon the other side, that are drawing against Sterling credits, and investing the proceeds in first class paper, at 10 m12 P cent

ton, 3s.a4s. Deadweight, 16s. To London and Glasgow the market is quiet. To Havre Cotton is taken at ic. Some 200 bbls. Oil were engaged to Hamburg at .c., and to Bremen some Rice and Resin at previous rates. A charter from Wilmington to Porto Rico was made on private terms, and from St. Johns a cargo of Deals to Bristol Channel at 3 15. To California a moderate amount is offering at 50c. Money on call was more easily obtained

Freights are still dull. Engagements,

1,000 bbls Flour to Liverpool at 6d. Grain, 31., Cot-

to-day than for a week past, but was in active demand at ? P cent. On paper there is no amelioration of rates, but the demand is better. Pirst-class names go at 10 w 12 P cent, with but few below 12 P

The amount received at the Sub-Treasury is \$69.850 Payments, \$102.335 Balance, \$3,793,817

The Honesdale and Delaware Plank Road, connecting Honesdale with the Eric Railroad at Narrowsburg, will be opened on Friday next with appropriate ceremonies. The Committee of the Commercial Con-

vention at Richmond has published its report. Its chief recommendation is to the towns on the Atlantic board and navigable rivers, imploring them to encourage and forward internal improvements, so as that the internal and foreign commerce of the State may be in the hands of its own citizens

The Chesapeake exports from the State per year, the Commutee values at \$6,123,85 00 7,724,724 00 Imports.... This entire commerce is carried on in Northern or as the Committee states, " foreign vessels."

Over a million bushels of Wheat were manufactured at Richmond last year, and this year the quan tity will amount to one and a half, and all the Flour is exported in foreign bottoms.

The Committee says that the profits on this commerce should belong to Southern men, and goes on to encourage measures calculated to realize this

It thus appears that there are now completed in Virginia 365 miles of radiroad and 418 miles of canals, and that there are now in course of construction 800 miles of radiroad and 220 miles of plank roads. There are nearly 2,000 miles of radiroads and canals constructed, or in progress of construction, in the State The appropriations for these works are already made, and the money has been almost entirely raised at home without the necessity of incurring a foreign dobt. The Committee couclude by recommending the

following resolusion

Resolvery, That lines of mail or other steamers, or other vessels, from Hampton Roads, to some port or ports of Europe, ought to be established; and Virginia, North Carolina, Teumessee, Kentucky, and such other Southern States as are disposed to and in the enterprise, should be appeared to, and an appear should also be made to Congress to bestow upon such line the same mail facilities which are estended to the Nothern lines, and the bar which now obstruct the navigation of James River, should be removed.

be removed. Resolved, That Committees be appointed to memorialize Congress and the Legislature of Virginia, and to prepare an address to the public upon the softpect aforesaid, and the great importance to the people of Virginia and the South generally, that they should conduct their own arms directly on their own bottoms, and with their own

trade directly on their own bottoms, and with their own men and means.

Resolved, That lines of packet ships, screw propellers, or mail steamers, ought to be established between the ex-perting causes of Virginia, and the West Indies, and South America.

Resolved also, That the people of Virginia be requested. America

Resolved, also, That the people of Virginia be requested to hold meetings in their several consities, ettles and towns, to effect the objects of the foregoing resolution; and that to this end at he recommended to them to adopt some organization, by the appointment of Standing and Caressponding Committees, or otherwise, as to them shall seem to standing and the construction.

best.

Resolved. That the merchants of our Atlantic cities ought to import directly to our Virginia ports the production of foreign countries used and consumed in this and the adjoining States; and that it be recommended to the merchants of the interior, and the people at large, to and them in this noble interior.

The Cincinnati Gazette states that the Pork merchants anticipate an unusually heavy Fall business, and are greatly increasing their facilities for extensive operations. Three mammoth Pork houses, 50 feet by 150, and four stories high, are be-

ing completed The advices from abroad are favorable in regard to money matters. The bullion in the banks of England and France was increasing, and in London the price of gold and silver was declining, an indication that the demand for India and the Con tinent was falling off. Money was easy at 3@3i Picent. From the weekly statement of the Bank of France for August 28, it appears that the circulation was 537,842,468 france, and the specie on hand 613, 174,757 francs, equal to \$116,503,000. By comparison with the account of the preceding week it appears that the cash in hand has increased by 6,250,000f. ; the commercial bills discounted have decreased by 750,000f.; the bank notes in circulation have in creased by 500,000f. the balance to the credit of the Treasury has increased by 3,500,000f, the sundry credits have increased by 1,500,000f. The deposits of specie in the banks of France is by far the largest accumulation of the precious metals in the world, exceeding by forty-six millions of dollars that of the bank of England.

The Legislature of Massachusetts, at its last session, authorized the Worcester and Nashua Railroad Company to issue preferred stock, at \$100 a share, in the proportion of one
